

3D Modeller

Lipsync VFX is a growing department within Lipsync Post guiding clients through the entire VFX process: from initial concept discussions, bidding and shoot, through to delivery of the final shots. All the way ensuring that we deliver the story the client wants to tell.

We're very proud of our staff and looking for the following addition to the talented team!

KEY RESPONSIBILITIES

- Create high-level CG characters and props for use in large scale feature film.
- 3D Modelling.
- Work efficiently to meet deadlines and monitor output quality and render efficiency.

QUALIFICATIONS & EXPERIENCE

- High or mid-level expertise in Maya.
- Familiarity with Arnold, Z Brush, Houdini, Nuke and Shotgun
- Works well in deadline-drive environment.
- Strong communication skills; team player.
- Proactive problem-solver; able to revise to client notes as required.
- Highly creative, with an eye for high-quality visuals and technical perfection.

Applicants must be based in London, and eligible for work in the U.K.
